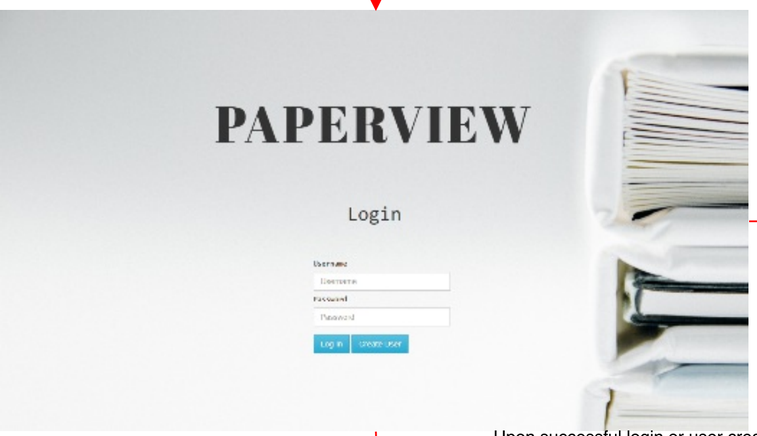
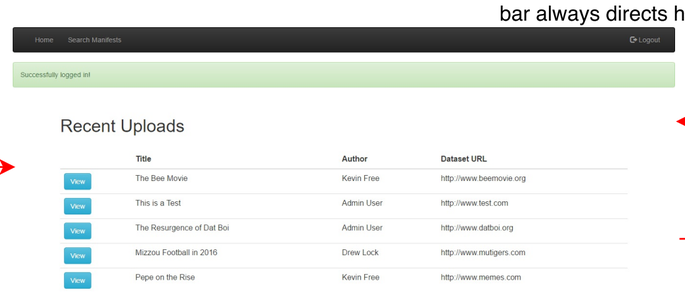
Web Map

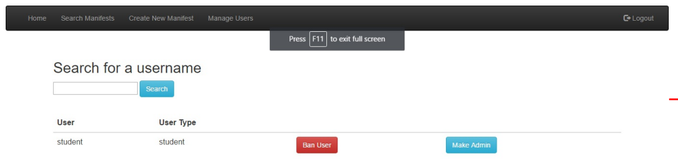
Navigating to the site at any time when you're not logged in redirects to the splash page. Hitting log out on the nav bar at any point also does so



The home button on the nav bar always directs here

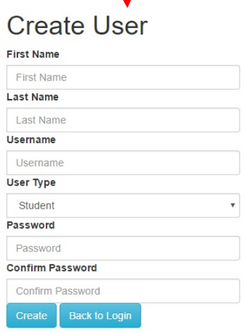


Manage Users, only available for admin, directs here



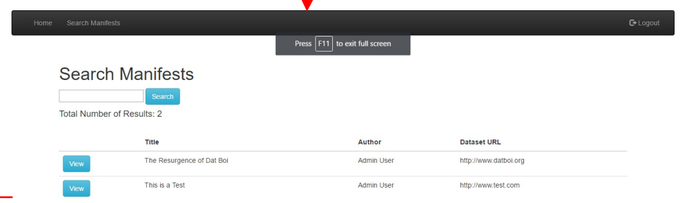
Ban User and Make Admin do as the titles suggest then refreshes the page

The create user button navigates here

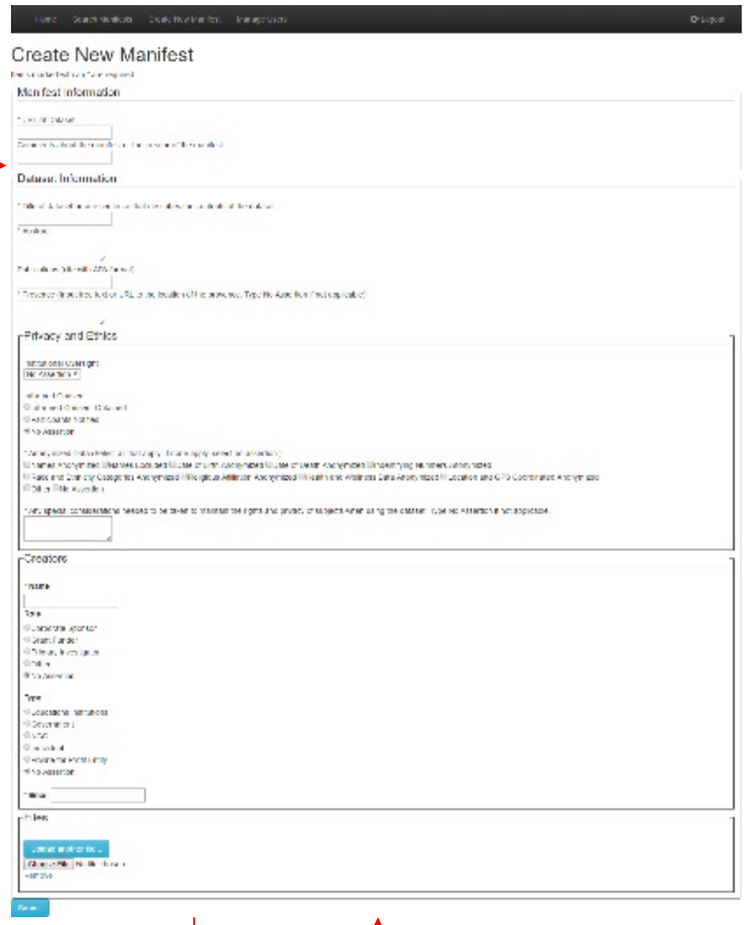


Upon successful login or user creation, navigates to the home page

The search button in the nav bar always directs here



Create Manifest on the nav bar, only available to scientists and admin, navigates here

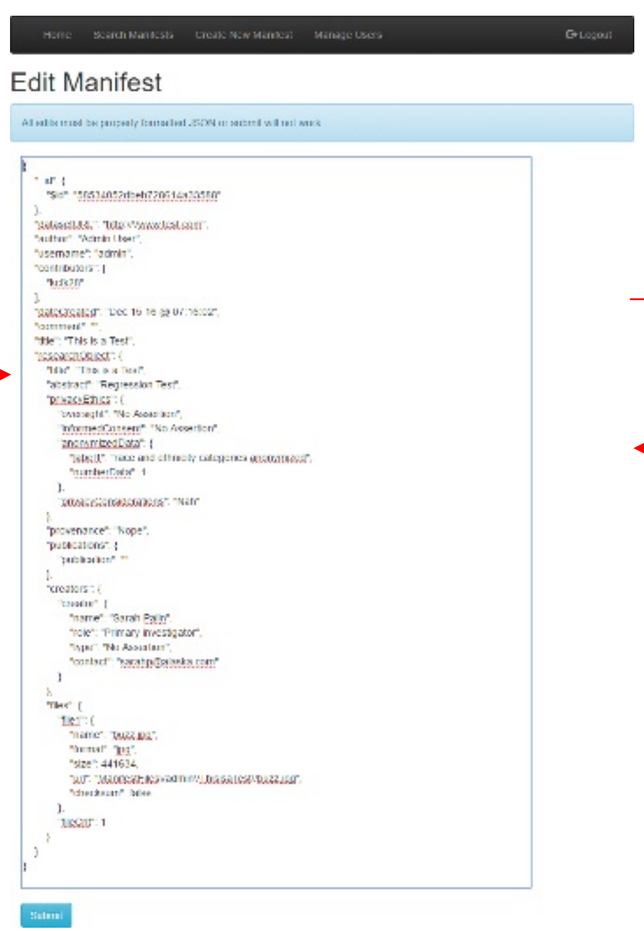


Submit refreshes the page and lets you know if it was successful or not

Hitting view on a particular manifest from search or the homepage will redirect here with the manifest information displayed

The download button takes you to where the files are stored

The edit button takes you here



Hitting submit edits the manifest in the database and keeps you on the edit page

The delete button will confirm that you want to delete and direct you back to the homepage, displaying whether it was successful or not
